TD Bank Group Partners with Norfolk County Agricultural Society to enhance greenspace at the fairgrounds.

October 1st, 2022 SIMCOE, ON - The Norfolk County Agricultural Society and TD Bank Group partnered in planting the first of a number of trees that will provide additional greenspace and shade on the 48-acre fairgrounds property in the heart of Simcoe.

“It is exciting to partner with TD to improve the greenspaces on our grounds” said Angela Hogeveen, General Manager of the Norfolk County Agricultural Society. “Our grounds are enjoyed by so many members of the community all throughout the year, and we are grateful that TD has come forward and supported us towards purchasing and planting many trees before years end to be enjoyed now and many years into the future.”

“TD is a proud partner with the Norfolk County Agricultural Society. At TD, we are committed to help build strong, inclusive communities and we are excited for the opportunity to support the creation of a green space where community members can gather” stated TD Branch Manager Jodi Shorrock.

This first tree, a Brandywine Maple, a native Carolinian species, was planted symbolically this week in the infield. The remainder will be planted following the 2022 Norfolk County Fair and Horse Show that takes place next week, to ensure the new trees aren't disrupted during the massive 7-day event.
